Remon Raafat

computer science student | looking to be a data scientist | Advanced Python , HTML/CSS , C++ , JAVA | Expected graduation year 2026 year

Cairo, Cairo, Egypt

Summary

As a Computer Science student at Cairo University with a passion for backend development or machine learning engineer or data sciences , I am eagerly seeking internship opportunities to further enhance my skills and contribute to innovative projects. Proficient in languages such as C#, C++, Java, Python, and HTML/CSS, I specialize in solving problems at a medium level. I aspire to leverage my knowledge and expertise to drive impactful solutions.

Experience

تمويلي

Full-stack Developer

August 2024 - September 2024 (2 months)

Cairo, Egypt

As a Full-Stack Developer, I have gained comprehensive experience building robust web applications using Angular for the front end and .NET API for the back end. With a solid understanding of SOLID principles, Object-Oriented Programming (OOP) in C#, and N-Tier architecture, I ensure scalable, maintainable code structures across all projects. I specialize in database management and have extensive experience working with Microsoft Entity Framework and SQL Server, implementing efficient data handling and optimization

Education

Cairo University

Associate's degree, Computer Science · (September 2022 - July 2026)
